Sr. Louis, Mo., June 2 .- The members of the Press Association of Texas arrived in the city this morning, and spent the day in preliminary business negotiations. The Texas delegates are expected in the morning. Their headquarters will be the Planters' botel. The city is rapidly filling with delegates and visitors from all parts of the Union. The lobbles of the leading notels were crowded to-right with politicians discussing the Vice-Presidency and the chairmanship of the convention. The boom for Ex-Senator Thurman, the old Roman, set in to-day and it is rolling along like a Kansas cyclone. There is scarcely a snadow of a doubt to night but that the ticket will be Cleveland and Thurman. Governor Gray, General Back and General Stevenson, the principal candidates for vicepresident, are completely overshadowed by the fame and personality of the old Roman from Onio. General Finly of Onio was to present General Black's name to the convention, but since the Thurman boom set in he and all the other Onio delegates have enthusiastically

GONE OVER TO THURMAN. Tammany Hall has telegraphed to the Onio leaders that it will cast a solid vote for Thurman and the entire Pacific coast is for him with a whoop. Tom Powell, one of the delegates at large from Onlo. was present at Thurman's residence in Columbus last night when the interview took place and privately telegraphed to friends here that Thurman's language is correctly quoted. Thurman said: "I am reluciant to permit the use of my name and would much prefer the nomi-nation of another. Of course I can sanction no scramole for the nomina tion, nor will I permit the use of my nrme in case of a contest. Vice President

LEAVES NO DOUBT WHATEVER in the minds of the party leaders here of Tourman's nomination on the first ballot. In fact it is generally thought that by next Tuesday all the other candidates will have pulled out, for when the southern delegations arrive to-morrow and Monday it is dead certain they will be solid for the old

Roman. Thurman's nomination has a very important bearing on the Republican nomination. It makes Onio a doubtful state, and prominent Democrats openly express the belief that the Repub licans in order to save Obio will be compelled to nominate John Sherman for President as it is generally conceded that Sherman is the only Onto man who could possibly carry the state against Thurman. With Ohio doubtful Indiana becomes a second consideration to both parties, white New York and Onio get the battle fields of the campaign. Congressman Scott of Pennsylvania, Major Armstrong of Onio and Colonel Brown of Indians, with half a dezen other prominent Democrats,

were this morning discussing the effect of Thurman's nomination on the R-publican convention. They were nearly unan-imous in the belief that it would result in the nomination of John Sherman and military company, Their guns arrived Levi P. Morton. Many thought this yesterday. This gives Paris four military would make a strong Republican ticket, but not strong enough to beat Cleveland and Thurman.

The Views of Delegates. St. Louis, Mo, Jone 2.-Chairman Barnum of the national Democratic committee arrived early this morning, but

could not be seen. Congressman Scott, the Pennsylvania member of the committee, reached the city this morning. To an Associated reporter Scott said that although he had had as yet no conference with the few members of the national committee who are now in St. Louis, yet General Collins

Powell, who appears as Thur-man's spokesman, was formerly anti-Thurman and nominated Governor Hoadley in the Unicago convention, but at the ast elec ion ran for Governor of the state on the Democratic ticket, and since that has been a warm friend of Judge Thur man, owing to the fact that the judge de clined the nomination in his favor. This settled the animosity growing out of the division of the state over Cleveland and Hoadley I expect Judge Thurman will be nominated by some other state, when Ohio will vote unanimously for him At present I don't see how he can be nominated by his own state. I had no idea Judge Thurman would be an available candidate, as he has so often announced himself opposed to holding any office, and has stated repeatedly that his only candidacy now was for a seat in heaven. Yes, Judge Thur men is a very strong man, and his nomi nation will force the Rapublican convention to nominate John Sherman, or make Ohio a doubtful state "

Colonel Watterson who is a candidate for permanent chairman was brief and positive in commenting on the announce "That removes all doubt," he said, "and Judge

THURMAN WILL BE NOMINATED by acciamation "

W D English, chairman of the state Democratic committee of California, expressed himself as highly gravifi d by the announcement that Judge Tourman would accept the nomination for Vice-President and was conflient he will get 5000 Republican votes for the Democratic ticket and that he will carry the state. He beheved the nomination will be made by

John Arkins, editor of the Rocky Mountain News of Denver, did not re-ceive the news with much pleasure, as it interfered with his candidate. He is for General Black, and candidly admitted this was a checkmating move. "Why," said be, "they are talking of following the numination of President Cleveland, which will take place with a hurrah, by the presentation of Thurman's name and it will g) through with a whoop withou a ballot. I am sorry to see it. It is bad politics. Judge Thurman is too old " "Ob, I don't agree with you," said Mr. English: "It is politics that will elect It will add wonderful strength to the

ticket. It is winning politics " It seems to be accepted by the leading Democrats as a foregone conclusion that Thurman's nomination will be by accla-mation. The statement is made by competent authority that Hon.W. L Scott, who is supposed to represent the preference of the administration is earnestly advocating among the few delegates here the younger man than Judge Thurman, yet we should doubtless vote for him as a unit and in my judgment he will be nominated by acclamation."

The Content for the Temporary Chairman ship

Sr. Louis, Mo , Jone 2 .- The Pacis: coast delegations have been working quietly, but vigorously, to-day for the temporary chairmanship, and they believe that they will land it for Governor White. They have called upon each national comyear performs the hignest and most mitteemse that is now on the grounds, patriotic duty that a citizen owes to the | and have held him until an answer was epublic and the cause of good govern- given. The delegations report that the answers of fifteen members of the committee had been favorable, and had there sillingness to accept the nomination for been more members here they would have more votes pledged.

The Vice Presidency Cuicago, ILL , June 2 -A Washington special says: It is said that a telegram has been received by the President from one of his managers at St. Louis to the effect that Judge Thurman will not refuse the Vice-President's nomination. I is further reported that not later than Monday evening, probably on Monday morning, a conference will be held by the friends of the leading vice-presidential candidates. At this conference the objections to Gray, the wrangle over Black. Suvenson and Morrison and the weak ness o. Senator Hearst and the general strength of Judge Thurman will oe taiked over. There can now be no doubt that the administration is satisfied of the advisability of nominating Judge Thurman, and of the fact that he will stand to the pomination if it is given to him. Secretary Whitney quoted as saying that Thurman will not law be removed, and rubber webbing only carry all the strength of both Black made with silk, cotton and wool be proand Gray in Indiana, but will make it uncomfortable for the Republicans in Onio, and that he will make it impossible to carry one or more of the Pacific slope from Monday, when the wire manufact-states.

Not a Bettled Matter.

ST. Louis, Mo, June 2.—Though a vast majority of the Democrats who have gathered here to attend the national convention believe Thurman will be nominated for Vice-President almost without opposition, matters are by no means settled. If the ex Senator is an administration candidate, all delegates have up to this hour declined to so avow. All efforts to induce Congressman Scott-who represents the President-to speak on the Vice Presidency, have utterly failed. He will not say one word The friends of Governor Gray have sent innumerable persons to him to-day for the purpose of ascertain-

ing what his wishes are, but without galoing the smallest satisfaction. Governor Gray's friends practically adm that if Thurman is the administration's choice he will be the nou ince, but Scott's reticence has given them some hope, and they are to night hard at work. They have to-day seen every delegate on the ground, and to-morrow will make a call in a body on the delegates from the Pacific coast at the headquarters of the latter. The coast men are for Thurman and declare that his popul larity with their people is so great that if the deputations should make a nomina-tion unsatisfactory to the Pacific states, for instance that of some man who in Congress voted against one of the Chinese pills, three states of the slope could not he carried for the Democracy. The Gray m n meet this argument with the statement that Indians is likely to be

THE GREAT BATTLE GROUND and that the Democracy could in no way make more sure of it toad to nominate Gray. They take great pride in showing figures to prove that Gray has always been successful before the people of Indiana. Among the best informed persons now on the ground there is little doubt that Congressman Scott came out here with the intention of nominating Thurman. They say the en-tire progremme for the convention, ticket

Walle nominally considering the paragraph putting lumber on the free list the Republicans have simply repeated their old platitudes about protection and free trade and have rambled simlessly about all over the bill as though it was still under general discussion. There have been half a dozen speeches on wool and a Pennsylvania member yesterday devoted all of his time to quinine, which has no connection with lumber except that it is made from the bark of a tree. This sort of discussion is simply filibustering in a very thin disguise, and if it is continued the Democrats will exercise the right of the major-

ity to put a stop to it by the usual method of amending the rules and cutting short the profitless debate. FURNISHING PUBLIC BUILDINGS.

Washington, June 2 .- The Secretary of the Treasury has sent to the House of Representatives a letter calling atten-tion to the fact that the unexpended balance of the appropriation for furniture and repairs of furniture for public buildings for the year 1888 is but \$695, and to the necessity for an additional appropriation of \$94,500 to be immediately availa-ble for furnishing new public buildings which are nearing completion. The Secwisdom and importance to the party of retary says every effort is being made to Thurman's nomination. He said to a have the buildings completed within the Maryland delegate this afternoon: "While next four months, and if action in makthe first choice of our delegation is a ling the appropriation is delayed until the regular appropriation bill is passed it will be impractic ble to provide for occupancy of the buildings at the date of their completion. WILL PULL THROUGH. CHICAGO, ILL., June 2 -A special from Washington says: General Sheridan, it is believed by those who have been permitted to see him this morning, will pull through unless he has another relapse. The passage of the bill reviving the rank of General, and the alacrity and cheerfulness with which he was nominated and confirmed, and his commission presented to him have done him more good than mere medicine. A Orippied Shoemaker Shot by a Woman Dead Pofant Found.

Correspondence of the Gazette AUBREY, TEX , Jane 1 .- Phillip Spear, a crippled shoemaker, was shot by Mrs. M. M. C.ardy here this morning. Five shots were fired; one breke his left arm, another went through his hat and a third glanced his breast, the other two missing entirely. The woman halls from Brown county, where she claims to own as good farm. She says her busband is in the

He ran a shoe shop and blind tiger here last year, but skipped when the grand jury met in January. It seems that he and the woman have been roaming over the country together for some three months. Special to the Gazette. DENTON, TEX , June 2.—Yesterday at the little town of Aubrey, ten miles north of here, a fight took place between Mrs. M. M. NEW ORLEANS, LA., June 2 .- The naws has been received here that W. J. Sowers was very popular, and seems to have been even more soft-hearted than Uncle Dick even more soft-bearted than Uncle Dick Tate of Kentucky, for whenever a tax payer pleaded poverty or hard times he usually gave a receipt in full for the taxes, becoming himself personally responsible for them, and a large part of his defalcation is attributed to this peculiar charity at the expense of the state. The people of Winn express only sorrow and sympathy for the de-faulter rather than anger, over the disappearance of the parish funds.
